ONLINE CERTIFICATIONS

FROM LINKEDIN LEARNING

- Learning Cloud Computing: Core Concepts- Created automated
- IoT Foundations: Standards and Ecosystems
- Kali Linux (2016) from LinkedIn Learning
- Learning Java (2018)
- Learning Python
- Raspberry Pi: GPIO from LinkedIn Learning

FROM COURSERA

- Programming for Everybody (Getting Started with Python)
- Strategies for Effective Engagement

INTERESTS

- Novel reading
- Travelling
- Sports
- Volunteering
- Puzzle Solving

WORK EXPERIENCE

IT INTERN | ISLINGTON COLLEGE JUN 2020 - JUL 2020

In Islington College, I did intern in IT department where we started doing intern just before Covid-19 pandemic. I did intern in college from last week of June to second week of July.

In my intern period, I've performed following tasks:

- Looked towards computer hardware and maintained it.
- Dealt with Student's technology related problem and solved it.
- Get familiar with Cisco Switch and servers.
- Helped IT department staffs.

Cybersecurity Intern | Vairav Technology 17 SEPT - 8 DEC

In this intern, we are supposed to work in different departments like SOC, SOC-Dev, VAPT and GRC. We performed various research and did different tasks based on real time scenario given by instructor and supervisor.

In my intern period, I've performed following tasks:

- Got used to SOC domains and SOC working mechanism.
- Got used to logs generated by ELK.
- Got familiar to VAPT and performed VAPT in real life.
- Different GRC terms & role of GRC in cybersecurity was studied.
- Beside technical skill, different soft skills was developed and improved.

ACADEMIC HISTORY

ISLINGTON COLLEGE

Bachelor's degree | 2018 - 2021
